

KCM

~~CONFIDENTIAL~~

9 September 1971

MEMORANDUM FOR: D/OER
D/OCI
D/OSR
D/OBGI

SUBJECT : Joint Projects

1. The ADDI would like a memo from you which describes any participation by your office in joint projects with anyone outside CIA (for example, with State, DIA or both). Your report should include projects completed over the past 12 months, projects underway, and how they came about. It should also define the nature of participation in each case (indicating, for example, if it merely involves consultation or if it entails writing and publishing a report or study).

2. You are also asked to explain how your office coordinates any projects prepared by other agencies - indicating, for example, if this is done informally between analysts, and if the finished product published by the other agency indicates concurrence by CIA. You should provide examples of this from your experience over the past year.

3. The ADDI would like to receive this information no later than Friday, 17 September.

25X1A9a

Chief, CD, does not feel there is anything that he is doing that fits the above category of projects. (CD performs a service to State for some graphics and aspects of graphic automation have been discussed with other agencies. CONFIDENTIAL) (biological survey etc.)
